

Capability Statement

SEAFIX INCORPORATED (SEAFIX) is the premier multiple disciplined Industrial Assistance and Marine Maintenance and Ship Repair Service company in the Commonwealth of the Northern Mariana Islands (CNMI) and Guam. SEAFIX is committed to excellence with success oriented focus through its ISO-9001: 2015 certification standards and compliance mandates. SEAFIX maintains and executes a formal quality management system which provides the platform for detailing processes and technical solutions, integral to delivering a high level of service to our clients.

Over the past 20 years, SEAFIX continues to be the preferred Industrial Assistance and Marine Maintenance service provider to the Military Sealift Command's (MSC) Maritime Pre-positioning Squadron Three (MPS-3) fleet of vessels assigned to Saipan, CNMI and Guam. SEAFIX is committed to developing its skilled and technical capabilities, acquiring a record of performance and success extending to the local and federal government and military sectors, as well as to the business community of the CNMI and Guam.

SEAFIX offers all its clients, a varying range of core competencies. SEAFIX's continuing core activity over the past 20 years is in support of the MSC MPS-3 fleet of vessels assigned to Saipan extending to other MPS vessels abroad. SEAFIX's local and regional capabilities are extensive and further enhanced by its well equipped machine shop and fabrication / maintenance facilities. SEAFIX continues to develop and offer multi-disciplines and trades skill-sets to include but are not limited to; ABS/AWS Certified Welders, ranging in qualifications from D1.1 All- Position Structural, 6GR Schedule 80 Pipe- All Sizes, and ASME Section IX Pressure Vessel, Diesel Engine Mechanics; Machinists and Fitters, etc. just to name a few. SEAFIX maintains an expansive infrastructure base to perform an array of related marine and industrial ancillary activities which also includes:
